

Dear Judge,

11-16-2022

My Name is Roger Price, you presided over my son, Rodney Price, trial.

I don't condone what my son did.

I actually think it is perverted, however he is my son.

I just wanted to let you know that Rodney isn't a bad person.

He was a good kid when he was young. He was a good kid in

school all the way up to and including graduation. I never had any

problems with him. He was actually getting his dream he wanted by

managing and owning his in-laws

Health Care Facility. He did everything

from administrative, plumber, carpenter

payroll and care giving for his

residents. He did this for ten years

while his in-laws would go on up to

3 cruises a year. They were able to

that because they trusted him.

He finally got to purchase the business

from his in-laws, but they stuck him

with a partner. He had one facility

while his inexperienced partner

had the other one. His life was

good until he and his wife separated.

He got with a bad person and that is

what she led him down and bad path

to drugs. I blame her for his drug

addiction. That cost him his business.

Before her I know he had a life
And then after her his life went
down hill rock bottom.

Like I said I don't condone what
he did And I don't understand why
other than his drug addiction.

I trust you And I know you will do
what you have to do. All I'm asking is
to if possible show some mercy for
my son. I have seen in the news
in my community And surrounding
communities of people being convicted
for actually molesting minor children
And I see where they get off with
a light sentence or probation.

Rodney has not been convicted of
child molestation of any minor child.
What he did was wrong but he has
been treated from the very beginning
like he was some kind of murderer.

I have prayed for him And prayed
for the Helpless Victims. I'm 68
And Rodney's mother is 65 And Bad
health. We would just want to be
with our son again before anything
happens to us. I want to thank you
for respecting my son through his
trial.

Thank you

Roger Rui

Dear Judge,

I am writing in regard to my nephew Roddy Price. I am not condoning what he did, it is certainly not acceptable.

When Roddy was a young child, I remember him always taking blame for his brother's mischievous endeavors. He would take to punishment for him. This was all fine as growing up. He would never say "he didn't do it."

I would like to see Roddy receive mental Health help, not prison. I believe prison would only harm him more. There is many who hurt children walking out on streets living their lives, but I believe Roddy would never hurt a child physically, he just wouldn't. I understand his behavior is behavior that is disgraceful and wrong doing.

I pray for Roddy to find his way to God and back to his family. The Roddy he is now, is not the Roddy I know.

I know his sentence is in your hands and decision, it is also in God's hands. Please consider Mental Health option instead of Prison.

Thank You
Leah Hutchings
